NOTICE

NOTICE TO ALL EMPLOYEES AND PUBLIC
NOTICE OF INTENT TO FILE APPLICATION FOR
PERMANENT ALIEN EMPLOYMENT CERTIFICATION

Pursuant to Section 20 CFR 656.20, you are hereby notified that an application for permanent alien employment certification is being filed for the following position:

The Department of Speech-Language-Hearing: Sciences and Disorders at the University of Kansas seeks to hire an Assistant Professor with expertise in Communication Sciences and Disorders. This position is part of a new College initiative in the area of Biobehavioral Approaches to Neurodevelopmental Disorders. KU is looking for highly talented people to develop innovative breakthroughs in etiological mechanisms, preventive approaches, and intervention methods to reduce the challenges for individuals with neurodevelopmental disorders. This initiative recognizes historical and emerging strengths at KU that contribute to new directions of discovery, and is being mounted to forge bridges across academic disciplines for front line collaborative research projects and next generation training. As part of this position, multiple new faculty will be hired and placed in highly competitive and well-ranked academic and research units with long histories of research excellence. You may learn more about the Biobehavioral Approaches to Neurodevelopmental Disorders initiative and positions at lsi.ku.edu/band_initiative. Individuals who want to engage in our effort to enhance human health and development locally and across the globe are encouraged to apply. KU is committed to promoting well-being and finding cures through research that spans pharmaceutical science and neurological studies, age-related health needs, speech, language and hearing, cancer therapies, and more. Job Duties: 40% Research: Develop, activate, and sustain a significant research program in his/her field leading to scholarly activity, publications, scholarly presentations, and competitively awarded research funds. 40% Teaching: Teach undergraduate and graduate courses and mentor undergraduate and graduate student research. Departmental teaching may range from traditional lecture courses, to small group laboratory sections, to professional seminars, and to individual research instruction. The typical teaching load is three courses per academic year (i.e., 2-1) but this can vary by appointment type (e.g., joint appointments, department leadership roles). Advise undergraduate or graduate students as assigned by the department chair. All classes must be evaluated by students. Faculty are expected to hold regular office hours. 20% Service: Serve on departmental, College, and University committees and actively contribute to the workings of the university community. Engage in professional service (e.g., refereeing, editing, serving on committees or as an officer/leader in national organizations, etc.). Attend department meetings and contribute to departmental projects as assigned by the department chair.

Required Qualifications:
1. Expertise in communication disorders that complements those of existing faculty and contributes to the interdisciplinary theme of biobehavioral approaches to neurodevelopmental disorders.
2. Ph.D. or ABD (degree expected by start date of employment) in Communication Sciences and Disorders, or a related discipline, is expected by start date of appointment.
3. Potential to establish an independent programmatic line of research that includes publications and external funding.
4. Potential to effectively teach courses and mentor students.
5. Willingness to participate in local and national service.
