

## HSA - Plan Year 2017 - (24 employee contributions)

If the maximum amount of additional HSA contributions are earned through HealthQuest (\$500 single or \$1000 employee with spouse covered), in order to not over-contribute, the employee's maximum annual contribution must be reduced.

The SEHP states "You will be responsible for ensuring that the contributions to your HSA account by you and your employer do not exceed the IRS maximums. Amounts in excess of the IRS limit will be subject to taxes. You may adjust (increase or reduce) your contributions during the year by logging into your account on the Membership Administration Portal (MAP) and submitting a request.

Note: If you are eligible for the age 55 catch-up, you can contribute an additional \$1000 to the IRS Max listed below.

	<b>KU Annual</b>	<b>Max Additional</b>	<b>Employee's</b>	
	<b>Contribution</b>	<b>\$ Earned from</b>	<b>Max Annual</b>	<b>IRS Max for</b>
<b>Full-Time</b>		<b>HealthQuest</b>	<b>Contribution</b>	<b>CY 2017</b>
