Pursuant to Section 20 CFR 656.20, you are hereby notified that an application for permanent alien employment certification is being filed for the following position:

Position Overview: The Department of Health, Sport, & Exercise Sciences (HSES) at the University of Kansas is searching for an Assistant Professor in the Exercise Science program to help grow our emphasis in the area of sport science. The position requires an earned doctorate in exercise science, exercise physiology, biomechanics, motor control, or sport science with a research emphasis in applied sport science. The department has multiple research laboratories available to conduct sport science research. These include the Jayhawk Athletic Performance Laboratory (an Innovation Hub of the Wu Tsai Human Performance Alliance), the Applied Physiology Laboratory, the Neuromechanics Laboratory, and the Cardiovascular Autonomic Laboratory, which are located on the Lawrence campus. In addition, the Metabolic & Body Composition Laboratory and the Exercise & Human Performance Laboratory are located on the Edwards campus in the Kansas City metro area. Additional collaborative opportunities exist with the Sports Medicine and Performance Center at the University of Kansas Health System. The position is a full-time, tenure track (academic year - 9 months). The School of Education and Human Sciences at the University of Kansas, home to the Department of Health, Sport, and Exercise Sciences, is one of the premier institutions in the preparation of practitioners and leaders in education and related human service fields. The School is committed to leading the way in providing academic excellence in teaching and learning, research and scholarly pursuits, and service. The School is ranked 9th among public institutions for its graduate programs by U.S News and World Report. The Department of Health, Sport, and Exercise Sciences offers a broad range of programs in exercise science, community health, physical education, and sport management. These programs, at the undergraduate, master’s and doctoral levels, prepare practitioners, administrators, researchers, faculty members, and leaders for all levels of education.

Job Description: 40% Research: Pursue a focused line of research inquiry in sport science. Pursue extramural funding. Develop collaborative relationships with faculty members within and across the University, including various research centers at KU, as well as globally. Direct student research including projects, theses and dissertations. 40% Teaching: Teach and evaluate students in the degree programs of Exercise Science at the undergraduate and masters level, and Exercise Physiology at the doctoral level. Courses assigned may be in-person, online or hybrid. Advise and mentor undergraduate, masters, and doctoral degree students. 20% Service: Contribute to the service mission of the Department of HSES, School of Education and Human Sciences and the University of Kansas.

REQUIRED QUALIFICATIONS:
1. Ph.D in exercise science related discipline or a related field at the time of appointment.
2. Evidence of scholarly ability through publications in the domain of applied sport science.
3. Evidence of ability to pursue extramural funding.
4. Experience working with coaches and athletes.
5. Evidence of ability to teach courses at the undergraduate and graduate levels.
6. Experience working with diverse populations.
