

Retirement Readiness Q2, 2022:

Let us help you pursue your goals

Saving for your future could lower your taxes

Did you ring in the New Year with a tax refund?

While a tax refund may be a nice way to get some quick cash, did you know that it means you overpaid your taxes and gave the government an interest-free loan for the year? The average income tax refund in 2021 was \$2,775.¹ Think about what an amount like that could do working for you all year instead of for the government. Additional savings to the KBOR Voluntary Retirement Plan may be both the tax and retirement saving strategy you've been looking for.

What about this year's tax refund? While it may be tempting to treat yourself with the extra cash, what if you paid it forward by taking care of something that hasn't happened yet? Stashing your refund in an emergency savings fund can give you peace of mind, especially when life hands you an unexpected hard time. With unexpected emergency expenses, it's a matter of when and not if.

Check out these resources from TIAA and Voya for other ways to use your refund so you can breathe easier, save more, and achieve financial wellness.

TIAA: 5 tax planning strategies

Voya: Savings strategies

Your financial wellness journey begins with you

Financial wellness is about balancing the freedom of living for today, saving for tomorrow and living within your means along the way. Not sure what the next best step is for you to take on your financial wellness journey? Start by watching videos from TIAA and Voya to help understand the principles of financial wellness including goal setting, protection, spending and saving, retirement planning, and more. These videos will also provide helpful tips on actionable steps you can take on your journey to financial health and well-being.
